

The world's first proven technology to bring things back to normal is here.

It's been a tough year. The Coronavirus has taken so much from all of us... more than 400 million people have lost the ability to provide for themselves and their families globally. And frankly, the new normal is anything but normal.

At a time like this, when we are afraid to step out, have friends, guests over, to get back to work, there's one thing we can assure you of... protection from the transmission of the Coronavirus in enclosed places. The Shycocan is a path-breaking technological innovation, a Virus Attenuation Device that disables the Coronavirus with up to 99.9%* efficacy indoors. It's about time we get life back to normal. And normal back to life!

Shycocan's Innovative Technology

100% Safe

No harmful side-effects to humans, animals or the environment

Effective

Disables Coronavirus up to 99.9%* in enclosed spaces

Plug & Play

Easy installation and no consumables required

Protects 1000 sq. ft.

Multiple devices can be used for larger spaces

PRODUCT SPECIFICATIONS:

Effectiveness	Up to 99.9%* efficacy against Coronavirus
Dimension	Length - 250 mm, Diameter - 260 mm
Cooling Air	64 CFM
Power Rating	40 W
Coverage Area	10,000 cubic feet or 1,000 sq. ft.
Ozone Emission	Below Detectable Limit (BDL)
Body Shell	Dielectric material
Product Weight (Net/Gross)	6.0 Kgs. max/8.5 Kgs. max
Installation	Wall mount
Life Cycle	5 years
