

Benda® Brush.

The original, disposable applicator brush.

World leader in disposable brushes and preferred choice of dental offices since 1989.

Centrix revolutionized the disposable applicator market 16 years ago with its introduction of the Benda Brush, making it easier to apply whitening agents, etchants, bonding agents, sealants, desensitizers, adhesives and resins.

The brush's chemical resistant fibers hold up to the harshest dental materials and they allow for greater carrying capacity and better smoothing and spreading action.

Our brush is the only brush designed by a dentist for use in a dental office. At Centrix, we make dentistry easier.

- Molded head design bends to any angle with no bounce back
- Non-linting, non-absorbent, chemical resistant bristles
- Disposable, to eliminate clean-ups and cross contamination
- Precision manufactured in the USA for consistent quality
- Available in regular and mini head sizes
- Variety of colors available for color coding procedures
- Single-ended or double-ended styles, with patented "snap apart" feature

Ordering is easy. Call 800-235-5862 or contact your preferred dealer. Visit centrixbendabrush.com for more information.
